Affected FW/SW version(s):		Affected product:	
Project version:			

Reason(s) to apply this Project Version(s):

Potential technical and commercial Risk/Impact:

Additional Description/Information:

Approval ¹

Customer Approval:
 In order to address required functional enhancements on an aged or outdated platform that is not in regular maintenance, Bosch will be providing you a project release version. Although the here listed version is believed to be reliable, it is still based on the originally released version, which might have become vulnerable, and is used at your own risk. Vulnerable versions must be used in protected environment only in responsibility of the customer or installer. Bosch cannot be made liable for losses from exploits of these vulnerabilities. It is strongly recommended to migrate the installation to recent state of the art products.
 With his signature, the customer and installer acknowledges that the project version might be vulnerable and that any vulnerability does not entitle to claim further fixes.

Date:	Product Manager / L3 Gatekeeper	Date:	Engineering Responsible
Date:	Level 2 Tech Support Manager	Date:	Customer/Installer

Important note:
 Respective customer, Level 2/3 support and all involved persons are confirming **not** to use this project release version for any other sites or projects.

¹ For e-mail approval, attach the e-mail or scan this document with signature.
